VIRGINIAN HOME

By: Mrs. Audrey S. Robinson
Vepco Home Economist

As Valentine's Day nears, you may be planning parties for the children. Usually the question is, "What punch shall I serve?" I developed the following punch recipe, which should be delicious, as well as very tasty, we think.

It is suitable for any time of year, but might be colored red for Valentine's Day. The basic orange color, with the addition of red food color, gives a bright "Valentine" red. For spring entertaining, simply omit the red food color, and serve as a golden punch.

Quick Punch
1 jar (14 oz.) "Tang" (1 2-3 cup)
1 6 oz. can frozen pineapple juice,
1 6 oz. can frozen lemonade concentrate.
3 qt. cold water.
2 qt. chilled gingerale.
Red food color, if desired.

Mix all except gingerale. Stir to dissolve "Tang." Refrigerate. At serving time, add gingerale. Makes 5 qts. and serves 40 punch cups.

For children you might like to dilute the lemonade before adding to the punch, which would simply mean adding one qt. additional cold water.

Add decorated ice cubes or float an ice ring, as desired.

You might like to freeze water in heart molds. Add a few red maraschino cherries when layer of ice is partially frozen.

by c. h. r.

I wonder how many of our gentle readers recall what the minister was saying about the time you stepped down the aisle and "joined the throng"? I recall that the preacher was on the subject of "Going the Second Mile," the night, as a wee lassie, I walked down the aisle to the third row from the rear on the left side, at the Crooked Run Baptist Church. "The Second Mile" I felt then, and still feel that there is a Christian challenge in those extra things" in life, over and which the only payment is satisfaction to the inner soul within you. Right now, I mention this because of a recent experience to show what is ideal of "The Second Mile" we have today among our teenagers, too. We were in Florida, and were on the beach in bathing suit. Very foolishly, I had carried along with me a "two-inch" that fitted into a lighted cigarette, to create the perfect impression that you had a "two-inch" habit hanging onto the cigarette. In ordering along the perfect beach, I asked for my souvenir ash!" Shame on you for such trite goings-on! As I wandered around looking for my lost cigarette, an attractive young teenage girl became interested in helping me search. But, no luck! I forgot about it. And the next morning, I was out soon after daylight for my traditional morning walk along the beach, looking for sea-shells or to discover the tides may have washed ashore. And, so it was, this same teenage girl came up and said she had been out looking, and had found a souvenir I had lost! She had found the "second mile" of human interest, and, so now, weeks later, I got a "thank you" to Sandra Dunn of Middleton, Nova Scotia, a school girl, who contributed a pleasant memory to a "country edition" vacation.

It would be a better world if we all acted how much "the little things in life" mean to our fellow friends and acquaintances.

Thanks to my friend, Mr. J. B. Timms, for bringing in several interesting clippings from the Akron, Ohio Beacon - Journal. One of the clippings has to do with the story of Valentine, a lover of birds, and lovers. It goes back to an ancient Roman festival known as Lupercalia. Unfortunately little is known about St. Valentine turn out to be stories of myths, and lovers, but too little of Valentine himself. He lived in the Third Century, which is quite a while ago. He was a priest in Rome. He was martyred for his faith. He died on Feb. 14, probably about the year 270. We are grateful to Mr. Kearns for bringing us the interesting clippings, and hope to refer to others soon.

Abbitt Bill To White House

Washington, D. C.- The Senate on Monday of this week passed and sent to the White House the Abbitt bill to stabilize the price support level of tobacco. The bill was passed by the House on February 9.

The proposal was introduced by Representative Watkins M. Abbitt (D., Va.), chairman of the Tobacco Subcommittee on Agriculture. The bill has been endorsed by all segments of the tobacco industry and is designed to stabilize the support level to prevent its spiraling due to a decline in price of other agricultural commodities.

Congressman Abbitt has said the legislation will permit adjustments for changes in farm costs so that the support level of tobacco will rise or fall in direct proportion to changes in prices paid by farmers for commodities purchased including taxes, wages, and interest.

The President is expected to sign the bill inasmuch as it was not opposed by the Department of Agriculture.

Local Chapter Plans Made For F F A Week

Robert E. Lee F. F. A. members of Appomattox High School are making plans for FFA Week. Their plans this year include an assembly program before the school body on next Wednesday; the display of FFA Week posters at several prominent locations throughout the county; and articles and pictures in next week's Times-Virginian telling about FFA activities.

Heading up the work about the local observance of FFA Week are the members of the chapter's executive committee. These are: Henry Covington, chairman; Myron Richardson, chapter president; Louis Moore, vice - president; Thelbert Stratton, Larry Torrence, Floyd Coleman, Robert Mann, Hunter Tolley, Randy McFadden, Buddy Day, Leroy Williamson, Edward Williams, Winifred Nash, Joel Carnefix, and Robert Garrett.

National Future Farmers of America Week seeks to focus attention on the work of the Future Farmers of today, who will be the successful farmers of tomorrow.

This nation must have a constant supply of new farmers every year to replace those who die, retire or otherwise leave the farm. These must be men with experience and training, for the successful farmer of today is both a scientist and a businessman; mechanic and a laborer, at the same time capable of leadership in the affairs of the community. Generally, they must be men who have begun farming at an early age, so that by the time they are ready to marry and start a family they will be firmly established in a farming program that promises a good future.

Vocational Agriculture and the FFA constitute the most effective program yet developed for training boys to be good farmers and helping them become established in the farming occupation of their choice.

Area Takes Big Snowfall In Stride

Appomattox is back in normal life again, after a weekend of tussle with the heaviest snowfall in several years. Without much warning, a sudden ten to twelve-inch snow fell in the area Saturday, and snarled up traffic and normal business.

The snow began falling before dawn Saturday, and continued during the day.

Many business places began closing by mid-afternoon on Saturday. Many church services were called off Sunday, as people could not get out of their driveways onto the major highways. Some buses did not run Saturday night.

In line with nearly all counties, the public schools of the county did not open Monday or Tuesday, but resumed schedules yesterday.

State police were kept busy by a number of emergency calls, but no serious accidents were reported. The State Highway Dept. labored overtime in an effort to open the most-traveled roads. Travel by chains was necessary up until mid-Wednesday.

Remaining behind today, is a crust of several inches of snow, awaiting either rain or more sunshine for a melting. But the roads were open, and normal conditions were returning.

Many meetings were postponed, as nearly everyone was on a "stay-put" basis.

Telephone and electric services in the area were normal all during the snow period.

Children took advantage of the snow to get in sleigh-riding, but in some areas, drifts and ice the snow was too deep to enjoy the sport.

Some sleet packed down the snow to a modest six or seven inches by Monday morning.

Farmers were not too worried by the snowfall. They believe, traditionally, that a good snow during February is a good thing for the land. Their major concern was to see that lifestock was cared for. ,

Maryland Type Leaf Quota

Preliminary returns from the Feb. 2 referendum on Maryland tobacco marketing quotas show that 4,568, or 77.9 per cent of the 5,867 growers voting approved marketing quotas for the three marketing years, beginning Oct. 1, 1960.

Since more than the necessary two-thirds of those voting approved the 3-year quotas, the marketing quota program will be in effect for the 1960, 1961 and 1962 crops of Maryland tobacco. Tobacco produced in excess of the farm allotment will be subject to a marketing penalty of 75 per cent of the average market price for the previous marketing year. Price support will be available on Maryland tobacco produced during these three crop years in accordance with applicable legislation.

In the last previous Maryland tobacco quota referendum held Feb. 24, 1959, only 64.2 per cent of the 5,021 growers voting approved quotas. As a result of that referendum, marketing quotas were not in effect for the crop grown in 1959.

New Branch in Operation

Another Division of Appomattox Garment Co. has begun operations. It is the Elk City Mfg. Co., Inc., in Bedford. The firm hopes to build up to over 100 employees soon.

Join the National Society Daughters of the American Revolution in observing American History Month this February.

Farmer Social Security Topic At Pamplin Meeting

"Social Security for Farmers" is the topic for the Pamplin Adult Farmers group. Mr. O'Hare, field representative of the Social Security Office, Lynchburg, plans to meet with the group. The meeting will be held in the Pamplin School building Thursday night, Feb. 18, beginning at 7:30 P. M. Mr. O'Hare will lead a discussion on "Social Security for Farmers," and will answer questions asked by the group. All interested farmers in the Pamplin area are invited to attend this meeting.

Next week, Feb. 25, Mr. George Abbitt, Jr., Commonwealth's Attorney discuss "Farm Laws" with this group. Mr. Abbitt is expected to cover incorporation, wills, deeds, and contracts, and to answer questions on these subjects.

The Pamplin Adult Farmers Evening Classes is sponsored jointly by the Pamplin Ruritan Club and the Department of Vocational Agriculture, of Appomattox County. It is an effort on the part of these two organizations to help Pamplin area farmers keep up with new and important developments affecting their farming businesses. W. Lewis Motley, Vocational Agriculture Instructor, is advisor to the group.
